Address:
Addis Abeba

Skills

BACKEND DEVELOPMENT

- **Golang programming language,**
- **GRPC,**
- **Nest js,**
- **Express js,**
- **Apache Pulsar for real time messaging,**
- **Microservice system design,**
- **Event Driven Architecture,**
- **Hexagonal code Architecture,**
- **Payment Integration,**
- **Database management,**
- **Mysql,Postgres,Mongodb,ElasticSearch**
- **API Gateway Integration and Load balancer**
- **Version control (Git, Github ,Gitlab)**

FRONTEND DEVELOPMENT:

- **React,**
- **Next.js,**
- **TypeScript,**
- **JavaScript,**

Language Skills

Amharic - Native, English - Advanced

About

I am a Computer Science graduate from Bahir Dar University with expertise in building s
systems and innovative solutions. Proficient in Golang, gRPC, Pulsar,Node js and microserv
hexagonal architecture, I specialize in backend development and event-driven architecture
successfully integrated payment systems like Telebirr, M-Pesa, and CBE, ensuring seamless tran
My experience includes developing Suk-Bederete, an e-commerce platform, and using tools like
Next.js, and Tailwind CSS for frontend development. With strong foundations in Data Structures
Algorithm Design, I deliver efficient, reliable solutions.

Education

Bachelor
Computer Science
Bahir Dar University
GPA: 3.91

Jun 2024
Graduation date

Work experience

Oct 2024 - present

Backend developer
Addispay Financial
Technology S.C

Specialized in integrating Telebirr, M-Pesa, and CBE for secure, efficient transactions. Developed APIs and workflo leveraging event-driven architecture for real-time updates. Designed a scalable payment gateway system, optimized performance, reliability, and compliance with industry standards.

Jan 2024 - Jul 2024
6 month
Suk-bederete e-commerce platform final year project
Bahir Dar University

Developed Suk-bederete an e-commerce platform enabling merchants to create customizable online shops using web builder tool . The platform features template selection, sh customization, and product management, with customer-fac pages for home, product details, cart, checkout, and order placement.

Certifications

Jun 2024
Certification was issued

Certificate of Completion in Python & Django REST API Bootcamp - Build A Python Web API
Udemy

May 2024
Certification was issued

Certificate of Completion in Employability skill and job readiness training
Mastercard foundation,dereja.com and Bahirdar University
